The CD That Will Help You Get The Most Out of Your Rollouts!

Are you getting the most from your Rollouts? Do you look forward to each one because they go effortlessly and smoothly with the result that the person you are talking with sees the value of your products and is eager to become a customer?

Or is it a struggle? Do you come up against resistance and objections that means the Rollout ends with "I'll think about it"?

I ask you this because if you'd like to get more out of your Rollouts, you're not alone. I'm frequently asked...

"Michael, how do I get more people to understand the value of my products? How do I get better results from my Rollouts?"

This was such a pressing problem that I discussed this with a number of leaders and we decided to hold a special teleclass that was recorded so that it could be shared as widely as possible with other Wellness Consultants.

Now, this teleclass was not theory! It included a number of role plays and the participants had to work pretty hard! You can hear for yourself the sort of thing that was covered by listening to this short excerpt...

[Click here to listen](#)

As I mentioned, the teleclass was recorded and it's now available as a CD program "Maximize the Results of Your Rollouts Using the Magic and Power of Dialogue". Here's what's in the program and what you will get out of it...

1. The Objectives of the Rollout (Don't miss this essential step!).
2. Preparing the Questions (Time spent here pays off!).
3. How, what and when to ask the questions
4. What to listen for and how to respond (This is where it really gets interesting!)
5. Understanding how to transition and present after the rollout (So that your presentation appeals to the uniqueness of each person, giving them a COMPELLING REASON to want to buy your products...)
6. How you create IMMEDIATE value in you and your products... (Asking questions and listening for the real meaning behind what people say creates the value. You demonstrate by your understanding you really are there for them).
7. An actual Role Play Dialogue and Analysis (So that you can hear and FEEL the Natural Selling Process)
8. Transitioning, Presenting and Committing.
9. Another Role Play to illustrate a different point.
10. Conclusion...and what to do next!

The result of this will be that you can build your business more effectively and get where you want to go in a shorter period of time. Imagine, as well, how much more enjoyable business will be when your Rollouts are effortless and produce results!

To help you further with your Rollouts, I've also made available the following questionnaire which will help guide you through the process. To view the questionnaire, [click here](#)

So, did I achieve my goal of creating a practical way to help people get more from their Rollouts? Here's an example of what your fellow Wellness Consultants have to say about this program...

Michael - It truly helped me after only listening to it once. I never thought about talking to the person before hand. By doing so, I did find out a lot more about them and their health. I also felt very relaxed. I liked that the tape was uncut as it shows you were having "real" conversations. Thanks.

Lisa Canavan. Buffalo, NY

Mac & I reviewed your Rollout CD -- it is great!!! It's what we've been teaching our folks since we got it, but they haven't had an effective "role-play" to pass on to their people when they bring on people (and as our team deepens, it's hard to personally teach everyone!). The key to teaching & duplication is LEVERAGE. Your CD will be that leverage. Thank you for what you are doing.

Mac McDonald & Pat Terry - Lakewood, WA

The CDs are only \$12.95 for a single copy or you can purchase a pack of 5 for \$49.95 to share with your team. To order, [just click here](#)

Best wishes and here's to your success with your Rollouts!

Michael

P.S. Remember, you're covered by our full money back guarantee. Use this approach in your rollouts for 90 days and if at the end of that time you can honestly say you're not getting better results, we'll give you a full, no questions asked, refund.

P.S. Just think how much quicker your business will grow when Rollouts are fun, effortless and effective!

P.P.S. This would also make a great holiday gift for your team or business associates!
